

## COLLABORATION FOR *NON-ANIMAL* COSMETIC SAFETY ASSESSMENT

TUESDAY, 12 MARCH // 0630 - 0800  
HILTON BALTIMORE // ROOM PEALE A-C

Today we are announcing the launch of a collaboration between Humane Society International (HSI), industry partners and other interested groups to: 1) globally harmonize non-animal cosmetics safety assessment legislation; 2) share information on non-animal cosmetic safety assessment approaches; 3) invest in education and training. In this interactive session, we will discuss these objectives, highlight opportunities to join the collaboration, and invite you to share your priorities and preferred formats for education and training.

**06:30 Welcome & Introduction**

Catherine Willett, Humane Society International

**06:50 Applying ICCR Principles to Next Generation Risk Assessment (NGRA)**

Paul Carmichael and Gavin Maxwell, Unilever

**07:10 Cheminformatics & Toxicogenomics to Support Toxicity Assessment**

George Daston, Procter & Gamble

**07:30 Priorities for Education & Training**

- **Round Table**

**Jay Ansell**, PCPC Vice President Cosmetics Programs

**Chris Barber**, CEO, Lhasa

**Warren Casey**, Director, National Toxicology Program's Interagency Center for the Evaluation of Alternative Toxicological Methods (NICEATM), National Institutes of Environmental Health Sciences (NIEHS)
